Summary

Deciding on the path of the front-end developer I set myself to gain new skills and development. I realize that good knowing HTML, CSS and a solid basis of JavaScript is the absolute minimum and I want to continue to work on it.

Skills

- coding HTML/CSS(SCSS) templates using Responsive Web Design principles
- technologies and tools:
 - basic knowledge of JavaScript and jQuery
 - Bootstrap
 - Adobe Photoshop
 - Git/SVN
 - Node.js/NPM/Grunt
 - editors: Sublime Text, Atom and Notepad++
- English - communicative
- German - certificate (A1)
Fremdsprachen-Institut Colón, Hamburg

Experience

1.10.2017 to now – Junior Frontend Developer Internship
Pepperzak GmbH, Hamburg, Germany

- coding of templates according to W3C requirements and recommendations, including verification of the code with the use of an official validator
- automation of work using Webpack / Grunt
- creating layouts using CSS Grid
- creating and modification of Handlebars templates

1.02.2016 to 30.04.2017 – Frontend Developer Internship
Track GmbH, Hamburg, Germany

- supporting the Newsletter Development Team
